Further information about the Customer Fair Value Assessment

AXA Retail has concluded the assessment of our core manufactured products to determine whether they offer fair value to customers for a reasonably foreseeable period. Our own analysis has been combined with information from our partners distribution arrangements.

Our Customer Fair Value Assessments consider the performance of our products against pricing, customer experience, claims & servicing metrics, target market alignment and product distribution arrangements including fees and add ons in order to understand the impact on the overall value of the product to our customers. Our findings for our latest product reviews are summarised below.

Whilst our products have been assessed at an overall level, there may be certain aspects we wish to pick up separately with specific partners, based on the responses to our distribution questionnaire or the information you provided regarding your distribution arrangements. Where we have identified any outliers, we will look to engage brokers individually to discuss next steps.
