# Intelligent Insurance.
Choose your easy.

Quote Your Way With The Source

At Source, we know advisers need more than just stats and data - they need an intuitive, powerful platform that makes placing home insurance fast, accurate, and adviser-centric.

That's why we built The Source, our all-in-one quotation system designed by advisers for advisers.

Adviser Benefits
Why The Source is the Best For You

✓ **Choose Your Easy**
Our flexible quoting platform boasts versatile features and useful tools. However you want to implement GI, there are multiple options to suit your workflow and unique clients.

✓ **Simple, Fast Quoting**
Reduce time in the quote process with auto-population and tools that streamline the experience, such as our Premium Predictor. Speed through and achieve a quality result!

✓ **Crafted With You In Mind**
Created in-house, collaborating with our Adviser Insight Forum, this system has been specially crafted by advisers for advisers so you really experience the benefits.

✓ **Data-Driven Insights**
Use your quoting data to identify key areas that may require extra attention, such as reigniting conversations at policy renewal and following up on pending cases. Maximise your output and reap the rewards with The Source.

Key Features
Designed to Suit Your Needs

✓ **Premium Predictor**
Find an indicative price at a quick glance, allowing you to find the best policy for your client's needs.

✓ **Share Quote Function**
With our Share Quote feature, you can pass the process to your client at key stages. This optional tool gives you the control to offer a unique experience tailored to your client.

✓ **Premium Saver**
Adjust premiums, commission levels and payment terms in real time. Slide between annual, monthly or bespoke payment options to show clients real-time price changes.

✓ **Customisation Tools**
Tailor the quoting journey to match your workflow. Choose from the top 1, 3 or a full panel of insurers and save your preference. You can also traverse declarations in one full list or go through step-by-step.
